

# ARE YOU SEEING A PATIENT WHO HAS BEEN DIAGNOSED WITH A PROGRESSIVE NEUROLOGICAL DISEASE?

LIKE MS, PARKINSON'S, MOTOR NEURONE DISEASE, HUNTINGTON'S DISEASE OR STROKE?

.....

**SPARK NeuroCare** are here to help –  
call us **1800 875 244**.

## Who is SPARK NeuroCare?

**SPARK NeuroCare** is a not-for-profit patient service bringing together the knowledge and expertise of six care providers – Epilepsy Queensland, Huntington's Queensland, Motor Neurone Disease Association of Queensland, MND and Me Foundation, MS Queensland and Youngcare.

**SPARK NeuroCare** specialises in working with people with progressive neurological diseases like Multiple Sclerosis, Epilepsy, Huntington's Disease, Motor Neurone Disease and Parkinson's, as well as Stroke and Acquired Brain Injury.

We have the specialist knowledge and health networks to help patients with progressive neurological diseases find the support they need right across Queensland.

## What SPARK NeuroCare can help your patients with:

- Understanding and applying for the NDIS & My Aged Care
- NDIS Support Coordination to manage NDIS plans
- Advice and information for patients tailored to their progressive neurological disease
- Connections to physiotherapy, exercise programs, occupational therapy & other allied health services, and management of service provider relationships
- Links to aids and equipment suppliers
- Wellness and educational programs

## Why choose SPARK Neurocare?

- We're experts in working with people with progressive neurological diseases
- We're a registered **NDIS Support Coordination** provider
- From diagnosis to managing complex care needs – we take care of your patients and answer their questions
- We've got the knowledge and the networks to help patients navigate the NDIS
- We have established local staff based across Queensland to respond to all patients
- We listen, we support patients' individual goals and help them stay in control of the entire process

## How does SPARK NeuroCare work?

1. Patients can contact **SPARK NeuroCare** on **1800 875 244**, [info@sparkneurocare.com.au](mailto:info@sparkneurocare.com.au) or just Google "SPARK NeuroCare"
2. We'll make an appointment for them with our local Service Coordinator in their area
3. We can visit them with their family or carers to discuss their needs
4. We'll create a personalised plan of information and resources to help manage their needs and symptoms
5. We'll help them prepare for, apply for and navigate the NDIS
6. We can organise referrals for them to allied health services (including physiotherapy, occupational therapy, speech therapy and more)
7. We'll stay in touch and keep up to date with changes in their needs and circumstances

If you have a patient with a progressive neurological disease, refer them to SPARK NeuroCare. We're here to provide support – from initial diagnosis to NDIS planning to complex care plans – and help take the stress out of these devastating diseases.

Let us help you find the right level of support for your patient.

**SPARK NeuroCare**
