- Parking: Ample parking available

Topic: Allied Health professionals and MND

- **Speech Pathologist – Annabelle Johnson & Anna Farrell**
- **Occupational Therapist – Renae Knight**
- **Physiotherapist - Natalie O'Donohue**
- **Dietician – Claire Blake**

Allied Health professionals play an extremely vital role in ensuring quality of life is maintained for people living with Motor Neurone Disease.

A very common question we get asked about these professionals is: “What is their role and what should I expect them to assist with?”

This workshop is designed to cover that exact question. Each presentation will cover the role of their speciality and give you a broad understanding of what to expect when dealing with a professional from their field.

Please RSVP to services@mndandme.com.au or call Paul on 3394 5333 by COB Wednesday, 12 September 2018.
